

Schedule EV-1

ELECTRIC VEHICLE CHARGING STATION

APPLICABILITY

Applicable to all Lane Electric Cooperative members requiring three-phase service for electric vehicle charging stations; subject to the established rules and regulations of Lane Electric.

TYPE OF SERVICE

Three-phase, 60 hertz, at available secondary or primary voltage.

MONTHLY RATE

Basic Charge (includes no energy)	\$90.50 per month
Demand Charge:	\$6.50 per KW for all KW
Usage Charge	9.71¢ per KWH
Minimum Charge (monthly):	\$90.50 per month

DETERMINATION OF BILLING DEMAND

The billing demand shall be the average KW load during the 30-minute period in which the consumption of energy is the greatest during the month for which the bill is rendered, as indicated or recorded by a demand meter at the point of delivery, and, where applicable, adjusted for power factor.

POWER FACTOR

The member agrees to maintain unity power factor as nearly as practicable. The measured demand, before adjustment for power factor, will be increased one percent (1%) for each one percent (1%) or major fraction thereof by which the average power factor is less than 97 percent lagging. Unless specifically otherwise agreed, Lane Electric shall not be obligated to deliver power to the purchaser at any time at a power factor below 75 percent. The formula for determining average power factor is as follows:demand meter at the point of delivery, and, where applicable, adjusted for power factor.

$$\text{Average power factor} = \frac{KWH}{\sqrt{(KWH)^2 + (KVARH)^2}}$$

TERMS AND CONDITIONS

The above charges are net and are due when bill is mailed. Service under this schedule is subject to the policies adopted by Lane Electric's Board of Directors and procedures established by the General Manager pursuant to Policy 104.

Adopted: December 17, 2018
Effective: To all billings rendered on or after January 1, 2019
Supersedes: Schedule EV-1 (December 18, 2017)
