## RATE CHANGES BEGINNING JANUARY 1, 2019

*Basic Charge to increase by \$3*

---

December 10, 2018

Dear Lane Electric Member:

Beginning with bills generated on or after January 1, 2019, all members will see a \$3.00 increase in the Basic Charge. The Board of Directors concluded this adjustment is necessary due to forecasted lower electricity sales and needed system improvements.

Additional details, including sample billings, are on our website at [www.laneelectric.com/rates](http://www.laneelectric.com/rates). We understand the economic challenges that our members face and will continue working to control costs by operating safely and efficiently to provide the most reliable electric service possible.

Thank you for your membership with Lane Electric Cooperative.

Sincerely,

Matt Michel  
General Manager
